New Jersey Abortion Facts

State abortion statistics from the leading public and private sources.

Collective state abortion statistics are gathered privately by the [Guttmacher Institute](#) and federally by the [Centers for Disease Control \(CDC\)](#). Because of reporting lag, their most recent data is generally 2-3 years old. In most cases, state-level abortion facts are more current than the numbers reported by AGI or the CDC.

CDC DATA

The New Jersey Department of Health does not collect abortion data from private abortion clinics. As such, the state reported abortion totals for New Jersey are not reliable.
